About ILIAS

Around since 1998, ILIAS is a **powerful learning management system** that fulfils all your requirements. Using its integrated tools, small and large businesses, universities, schools and public authorities are able to create **tailored, individual learning scenarios**.

ILIAS is Open Source. The international ILIAS community provides the direction for the development of ILIAS, which is then coordinated by the ILIAS Society. A professional network of service providers can make adjustments for you, as well as offering hosting and training.

Anyone can use ILIAS - free of cost - and also take part in shaping its further development.
